Common name

artist's conk

annosum root disease

beech bark disease

black knot

brown spot needle blight

cedar-apple rust

chestnut blight

dogwood anthracnose

Dutch elm disease

dwarf mistletoes

fusiform rust

hypoxylon canker

lichens

nectria canker

needle cast fungi

oak wilt

red heart of pine

white pine blister rust

clinker polypore

Scientific Name

Ganoderma applanatum

Heterobasidion annosum

Neonectria ditissima

Apiosporina morbosa

Mycosphaerella dearnessii

Gymnosporangium juniperi-virginianae

Cryphonectria parasitica

Discula destructiva

Ophiostoma ulmi

Arceuthobium sp.

Cronartium quercuum f.sp. fusiforme

Biscogniauxia atropunctata atropunctata

numerous species

Neonectria ditissima

numerous species

Ceratocystis fagacearum

Phellinus pini

Cronartium ribicola

Inonotus obliquus
